

Some simple modern style Gregorian scores can be achieved using the standard LilyPond notation although it uses a number of tweaks.

551 Alleluja

(ÉE 432)

A - le - lu - ja. a - le - lu - ja. a - le - lu - ja.

... but are much easier to code with 'modernGregorian.ily':

551 Alleluja

(ÉE 432)

A - le - lu - ja. a - le - lu - ja. a - le - lu - ja.

Now comes a heavier score with some complex neumes...
Not a problem at all for 'modernGregorian.ily':

4b. XV. zsoltár

4b Meg - is - mer - tet - ted vé - lem, U - ram az é - let

... even with ledger lines and neumes' ornament:

601 Sanctus (GrR VI. mise)

mi - ni. Ho - sán - na in ex - cél - sis.
